Re: Orchestrated attack on Elected Members of the National Assembly

The Cambodian people all over the world were shocked and outraged to see such cruelty, a physical attack in broad daylight against their two country's members of parliament, HE Sophea Kong and HE Chamroeun Ngay.

Clearly, this is an attack on Cambodia's democracy and Cambodian voters as a whole.

Cambodia National Rescue Party of North America (CNRP-NA) strongly condemns such orchestrated violence on the side of the Cambodian authorities, another classic act of its sickening “culture of violence” instead of the promotion of “culture of dialogue” and “political tolerances”.

The people will be watching whether perpetrators of the crime, the mastermind behind the scene, can and will ever be brought to justice. The people will judge fairly and decisively when it comes to decision time. Justice shall prevail in due course.

We stand in solidarity.
