No. 073/1115 NA

November 14th, 2015

## For Immediate Release

At the moment, the Cambodian people and the international community witness another political mockery of Cambodia's justice system. It is absolute absurdity!

The latest arrest warrant issued against the opposition leader, Mr. Sam Rainsy, is a political calculation and it only serves to further damage the reputation of the court. The eight-year-old “defamation” suite against an active law maker with full parliamentary immunity is neither effective nor valid.

Mr. Sam Rainsy was granted full royal pardon in July 2013 by King Norodom Sihamoni that absolved all legal cases. Any attempts to arrest Mr. Sam Rainsy based on this warrant or any other cases relating to recent political dealings will confirm that Cambodia has lost all its sense of democracy.

The Cambodian people and the world are watching. The government must immediately rescind this invalid warrant without conditions to demonstrate it respects the royal pardon and the constitutional rights of law makers.

CNRP-NA urges the government to return immediately and unconditionally to the “Culture of Dialogue” by ending all hostilities and release all political prisoners and activists without conditions to ease concerns and tension among the people.
